

DATA ABOUT YOUR INTENDED WORK AT SILTRONIC AND ABOUT THE RELEVANT RULES IN YOUR UNIVERSITY'S EXAMINATION REGULATIONS

To be completed by the student:

Name of student:	
Degree course:	
Name of university:	
Faculty responsible:	
Name of your university supervisor:	
Are you employed by the university?	yes <input type="checkbox"/> no <input type="checkbox"/>
Expected duration of your work:	
Earliest starting date:	Latest starting date:

Type of work (check appropriate box)

An Internship

A voluntary internship, not involving an examination or a course certificate

A mandatory internship, as specified in your course regulations

For a mandatory internship, please refer to your university's examination regulations or contact your examinations office for information about the following points:

- What requirements apply to the content of your internship?
Answer:
- How does your university expect you to document your internship? If you need to write an internship report, is a descriptive account of your activities enough? Or are you expected to report on the results of your activities, too?
A:
- If your results are needed, can you supply only abstract and/or generalized data without being at a disadvantage? (*Example of generalized data: reactant A+B instead of Si + HCl*)
A:
- Where do you have to hand in your report? Who will have access to your report? Will it be published (e.g. in the university library)?
A:
- Will you have to give an oral account and defense of your internship results? If "yes," who can come to this oral phase?
A:
- Are your university and university supervisor willing to sign a non-disclosure agreement with Siltronic?
A:

Writing a Dissertation or Thesis

- Bachelor dissertation
- Master's thesis
- Diploma dissertation
- Other dissertation or thesis:

Please refer to your university's examination regulations or contact your examinations office for information about the following points:

- What requirements are there for content, topics and application fields?
A:
- Will your thesis be published (e.g. in the university library)?
yes no
- Where do you have to hand in your thesis? Who will have access to your thesis?
A:
- Is it possible for you to use only abstract and/or generalized data in your thesis without being at a disadvantage?
(*Example of generalized data: reactant A+B instead of Si + HCl*)
yes no
- Do your university's examination regulations allow for a non-disclosure clause?
yes no
- If "yes," what is the clause's maximum duration and what regulations apply to such a clause?
A:
- Will you have to give an oral account and defense of your thesis?
yes no
- If "yes," who can come to this oral phase?
A:
- If "yes," can the general public be excluded from this oral phase?
yes no
- If "yes," what needs to be done to exclude the general public?
A:
- Are your university and university supervisor willing to sign a non-disclosure agreement with Siltronic?
A:

I have answered these questions to the best of my ability (date):

The contents of this document apply to men and women alike even if gender-specific words (e.g. "he" or "she") are used for simplification.
