Siltronic Receives Intel's Preferred Quality Supplier Award

Munich, March 7, 2018 – Siltronic AG has been recognized by Intel as recipient of a 2017 Preferred Quality Supplier (PQS) award.

The PQS award recognizes companies like Siltronic that Intel believes have relentlessly pursued excellence and conducted business with resolute professionalism.

“The dynamic nature of our business necessitates continuous improvement and an unrelenting focus on quality,” said Jacklyn Sturm, Vice President of Technology and Manufacturing Group and General Manager of Global Supply Management at Intel. “As Intel transitions to become a more data centric company, our award winning suppliers are embracing the most difficult challenges with rapid innovation and bold strategies.”

To qualify for PQS status, suppliers must exceed high expectations and uncompromising performance goals while scoring at least 80 percent on an integrated report card that assesses performance throughout the year. Suppliers must also achieve 80 percent or greater on a challenging continuous improvement plan and demonstrate solid quality and business systems.

Additional information is available at the [Intel Newsroom](#).

Company profile:

Siltronic is one of the world's largest manufacturers of hyperpure silicon wafers and partner of many leading semiconductor companies. The company has a network of state-of-the-art production sites in Asia, Europe and the USA. Siltronic develops and manufactures silicon wafers in diameters of up to 300mm. Silicon wafers are the basis for modern microelectronics and nanoelectronics and a key component in semiconductor chips in e.g. computers, smartphones, navigation systems and many other applications. Siltronic AG employs nearly 3,800 people and is stock listed at the German Stock Exchange since 2015 and is a member of the TecDAX.
