Siltronic Receives Intel's Preferred Quality Supplier Award

Munich, March 8, 2019 – Siltronic AG has been recognized by Intel as a recipient of a 2018 Preferred Quality Supplier (PQS) award.

The PQS award recognizes companies like Siltronic that Intel believes have relentlessly pursued excellence and conducted business with resolute professionalism.

"Intel's award winning suppliers are critical to Intel's success," said Jacklyn Sturm, corporate vice president and general manager of Global Supply Management at Intel. "As we grow into new markets with evolving and expanding product quality and performance requirements, these suppliers continue to rise to the challenge to collaborate, innovate and win together."

To qualify for PQS status, suppliers must exceed high expectations and uncompromising performance goals while scoring at least 80 percent on an integrated report card that assesses performance throughout the year. Suppliers must also achieve 80 percent or greater on a challenging continuous improvement plan and demonstrate solid quality and business systems.

Company profile:
Siltronic is one of the world's largest manufacturers of hyperpure silicon wafers and partner to many leading semiconductor companies. The company operates production sites in Asia, Europe and the USA. Siltronic develops and manufactures silicon wafers in diameters of up to 300 mm. Silicon wafers form the basis for modern microelectronics and nanoelectronics and are a key component in semiconductor chips driving computers, smartphones, navigation systems and many other applications. Siltronic AG employs around 4,000 people and is a stock-listed company in Germany (Prime Standard). Siltronic shares are included in the MDAX and TecDAX.
