Siltronic donates EUR 100,000 for victims of the flood disaster in Germany

Germany, Munich, August 13, 2021 – Siltronic AG, one of the leading manufacturers of hyperpure silicon wafers for the semiconductor industry, is donating EUR 100,000 to the victims of the flood disaster in Rhineland-Palatinate. Siltronic has chosen the Ahrweiler district's emergency aid as the recipient of the donation, which provides for unbureaucratic payment to those affected and is independent of the emergency aid provided by the state of Rhineland-Palatinate.

"We are shocked about this disaster and the devastation it has caused. We feel for the people in the flooded areas who have lost their belongings or even relatives and friends. We would like to support the suffering people in the Ahrweiler region with our donation," said Dr. Christoph von Plotho, CEO of Siltronic AG.

Company profile:

Siltronic is one of the world's largest manufacturers of hyperpure silicon wafers and partner to many leading semiconductor companies. The company operates production sites in Asia, Europe and the USA. Siltronic develops and manufactures silicon wafers in diameters of up to 300 mm. Silicon wafers form the basis for modern microelectronics and nanoelectronics and are a key component in semiconductor chips driving computers, smartphones, navigation systems and many other applications. Siltronic AG employs around 3,900 people and is a stock-listed company in Germany (Prime Standard). Siltronic shares are included in the SDAX and TecDAX.
