Siltronic supports Singapore Scholar Sponsorship (SgIS)

Singapore, September 5, 2019 – Siltronic Singapore is once again supporting four scholarship holders with the Singapore Scholar Sponsorship. Since 2017, Siltronic Singapore has been a SgIS sponsor and has so far benefited ten young talents from the local universities.

Founded in 2012, the SgIS program is the only cross-sector scholarship in partnership with the Singapore government. It provides Singapore's leading organizations and young talents with a platform to support bright minds in their careers and prepare them for tomorrow's leadership. Siltronic Singapore sponsors the fields of engineering, information & communications technology and supply chain management.

“The SgIS initiative has attracted top undergraduates of the cohort each year to apply. This provides us a good platform to secure young and bright talents to join Siltronic.” Niew Bock Cheng, President Siltronic Singapore

The scholarship agreement was signed on August 15, 2019 in the presence of the scholarship holders and their sponsors at Siltronic Singapore. Scholars from 2018 were also invited to share their experiences and the reasons why they chose Siltronic.

At the end of the event, parents and scholars were given a guided tour of the Crystal Drawing Hall and the 200 mm factory. The tour gave the scholarship

holders a great opportunity to see some of Siltronic's operations and facilities, which are equipped with the latest technology. In addition, the scientists were given a good insight into Siltronic's professional life and future opportunities at Siltronic Singapore.

From left: Lim Chiun Hao (2019 Scholar), Ling Si Hui (2019 Scholar), Lim Yew Hong, Delvin Chua (2018 Scholar), Dr. Seow Will-Son (Vice President CZ Centre Siltronic Singapore), Lee Wei Xiang (2019 Scholar), Niew Bock Cheng (President Siltronic Singapore), Lim Hao Wei (2018 Scholar), Loh Jiong Rui (2019 Scholar), Tay Chao Jun (2018 Scholar), Koh Yeow Meng (Director Engineering Siltronic Singapore)

Company profile:

Siltronic is one of the world's largest manufacturers of hyperpure silicon wafers and partner to many leading semiconductor companies. The company operates production sites in Asia, Europe and the USA. Siltronic develops and manufactures silicon wafers in diameters of up to 300 mm. Silicon wafers form the basis for modern microelectronics and nanoelectronics and are a key component in semiconductor chips driving computers, smartphones, navigation systems and many other applications. Siltronic AG employs around 4,000 people and is a stock-listed company in Germany (Prime Standard). Siltronic shares are included in the MDAX and TecDAX.
