### **Siltronic welcomes its new trainees in Burghausen**

**Burghausen, September 6, 2019** – In September 2019, six young men and women started their apprenticeships at Siltronic in Burghausen. Over the next three and a half years, they will be educated as industrial mechanics and electronics technicians for the areas of automation technology and warehouse logistics.

Siltronic is one of the world's leading suppliers of high-purity silicon wafers and a partner to all leading chip manufacturers and the semiconductor industry. Highly qualified employees with many years of experience work for the company at its locations in Germany, Singapore and the United States. The apprentices can expect comprehensive education with a high degree of practical relevance and individual support from Siltronic's trainers. The apprentices will achieve the theoretical knowledge at the BBIW in Burghausen. Siltronic wishes the apprentices a successful start to their careers.

Online applications for the start of the apprenticeships in September 2020 can still be submitted until October 31, 2019.

More information can be found on the website under [www.siltronic.com](http://www.siltronic.com).

**Company profile:**

Siltronic is one of the world's largest manufacturers of hyperpure silicon wafers and partner to many leading semiconductor companies. The company operates production sites in Asia, Europe and the USA. Siltronic develops and manufactures silicon wafers in diameters of up to 300 mm. Silicon wafers form the basis for modern microelectronics and nanoelectronics and are a key component in semiconductor chips driving computers, smartphones, navigation systems and many other applications. Siltronic AG employs around 4,000 people and is a stock-listed company in Germany (Prime Standard). Siltronic shares are included in the MDAX and TecDAX.
