

# **PRODUCTION OPERATOR**

## **RESPONSIBILITIES**

- $\rightarrow$ Demonstrate competency to set up, load, and unload equipment. Monitor equipment settings and operation by comparing actual settings to targets and adjusting as needed.
- $\rightarrow$  Work an 11.5-hour shift, which includes weekends, holidays, and occasional scheduled overtime, which may be voluntary or mandatory. Staffing model requires 10% mandatory overtime - one extra shift per month.
- Read, understand, and follow equipment-operation procedures, order-processing instructions, graphs, and charts.
- → Demonstrate ability to perform multiple related or unrelated tasks simultaneously and/or sequentially, to operate a variety of machines, or to operate multiple pieces of equipment at one time if required.
- → Meet physical requirements necessary to perform each task. (as described in addendum)
- → When required to handle hazardous materials, follow written procedures and wear dictated personal protective equipment.
- → Perform all required tasks safely.

### REQUIREMENTS

- $\rightarrow$ High school diploma, GED or equivalent.
- $\rightarrow$ Basic written and oral communication skills in English.
- → Demonstrated knowledge of basic math (add, subtract, multiply, divide, & determine relative magnitudes).
- → Demonstrated systematic problem-solving techniques.
- → Basic computer skills.

### SILTRONIC AG

Siltronic is one of the world's largest manufacturers of hyperpure silicon wafers and partner of many leading semiconductor companies. The company employs around 4,000 people. The company has a network of state-of-the-art production sites in Asia, Europe and the USA. Siltronic develops and manufactures silicon wafers in diameters of up to 300mm. These are the basis for modern microelectronics and nanoelectronics.
