Company profile:

Siltronic is the third largest manufacturer of hyperpure silicon wafers worldwide and partner of many leading semiconductor companies. The company has a network of state-of-the-art production sites in Europe, Asia and the USA. Siltronic develops and manufactures silicon wafers in diameters of up to 300mm. Silicon wafers are the basis for modern microelectronics and nanoelectronics. They are key components of e.g. computers, flat-screens, navigation systems, control systems for the automotive industry and many other applications.
